Hydration Mastery Tips

- **Set Reminders:**** Use your phone or a dedicated water bottle to track ounces throughout the day.
- **Flavor It Up:**** If plain water is boring, add slices of cucumber, mint, or berries.
- **Avoid Calories:**** Black coffee and unsweetened herbal teas count, but sugary drinks and fruit juices do not count toward your water goal.
- **Pre-Meal Water:**** Drink a glass of water 30 minutes before each meal to aid digestion and manage portion size.
